Re: Title: "Directional Antenna Physical Layer Steering for WLAN"
Your Reference No.: TAN02-41
HBSR Docket No.: 2479.2179-002

Gentlemen:

Enclosed is a copy of the U.S. Patent Application which was filed in the U.S. Patent and Trademark Office on September 30, 2003.

Also enclosed is a Declaration for Patent Application for the referenced case.

It is appropriate at this time to confirm that we have designated the correct inventor(s) in the attached Declaration and that the specification and claims meet the enablement and best mode requirements under U.S. patent law.

To assist you in this determination, each inventor should note the following:

1. Inventorship: Only persons who have made an inventive contribution to the conception of at least one of the claims in the patent application should be listed as an inventor. Any doubts on this matter should be resolved with me before proceeding further.

October 22, 2003

Page 2

2. Enablement: This requirement imposes an obligation on the inventor to describe the invention in sufficient detail to enable a person skilled in the art to make and use the invention which is the subject of the patent application without undue experimentation.

3. Best Mode: The "best mode" requirement goes further than the "enablement" requirement by obligating the inventor to include in the patent application a description of the best mode contemplated by the inventor of practicing the invention.

An inventor's failure to comply with the "best mode" or "enablement" requirements may invalidate a patent. In addition, intentional failure to correctly name inventors could result in an invalid or unenforceable patent. If you have any questions or concerns, please call me.

Please note that the Declaration requires that each inventor carefully read the patent application in its entirety before signing it. If the application is acceptable, please sign and date the Declaration in BLUE ink. You should also check to be sure that the typed name, address and citizenship on the Declaration are correct. If they are not, you should indicate the correct information in BLUE ink, and initial and date each correction in the margin.

If you have any questions or concerns, or feel any changes need to be made in the Declaration, please call me.

Please return **all** pages of this document as soon as possible for filing in the U.S. Patent and Trademark Office.

Very truly yours,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.
